

Tool-/Stock List of stainless steel pipe bends

**... for pneumatic
tube systems**

- pipe bends in material no. AISI 304 or 316 L
- bending angle: stock articles 90° and 45°
- welded seam smoothed or shaved DIN 11 850
- absolutely wrinkle-free, no start-up bulges
- no scratching or scoring
- visually aesthetic surface
- leg extension each side

Outer pipe diameter in mm	Diameter in mm	Radius in mm								new 1200	new 1500
